

We're looking for an Energy Consumer Rights Adviser

The role is designed to empower clients to use their legal rights to challenge energy company decisions, and work with clients to maximise their income. It is not a role that is focused on installation of boilers, insulation and other hardware.

The successful candidate will provide direct advice and guidance to clients, and assist them in resolving issues with their energy suppliers. They will help clients enhance their energy efficiency, reduce fuel bills, and lower overall consumption.

We are open to applications from candidates with all levels of advice experience.
